10+ Years

SUMMARY

Experienced Software Developer with **10 years** in developing and consulting on applications using **Angular, React, Node.js and PHP**. Expert in crafting state-of-the-art, robust, and reliable code with a keen eye for style. Possesses advanced programming skills, encompassing everything from architecture to API design. Proven track record of successfully delivering **300+ projects** medium to large-scale applications with millions of users, ensuring timely and value-driven outcomes.

EXPERIENCE

Senior Full Stack Developer

Professional Services

06/2021 - Present Mohali, USA

- A proven track record of delivering professional services to some of the largest tech companies (**Cisco, Lucid, Upped Events**) on contract basis.
- My experience includes collaborating with industry leaders to implement cutting-edge technologies, streamline processes, and drive innovation.
- This has enabled me to develop a deep understanding of the unique challenges and opportunities within the tech sector, ensuring successful project outcomes.

Technical Lead

illuminz

06/2018 - 05/2021 Mohali, Punjab

- My responsibilities included developing applications and leading a team of technical developers, assisting them in problem-solving.
- I communicated with clients, listened to their feedback and discussed all project-related matters. I provided weekly demos and reviewed upcoming milestones to ensure quality and timely delivery of work.

Senior Software Developer

Webclouds

10/2013 - 05/2018 Mohali, Punjab

- Worked with various technologies and collaborated with sales and team leads to provide accurate project direction, timelines, and availability.
- Successfully built and maintained a range of customer-facing applications with different programming languages.
- Closely worked with the project team during User Acceptance Testing (UAT) and implementation phases to ensure successful and timely outcomes.

EDUCATION

Bachelor of Science in IT (BSc IT)

Kalinga University

06/2014 - 06/2016 Raipur, India

Diploma In IT (DIT)

Punjab Infotech

10/2012 - 10/2013 Mohali, Punjab

PROJECTS

Upped Events

Developed a comprehensive software solution designed to manage all aspects of event organization. This all-in-one platform facilitates ticket sales and staff management for event owners, streamlining operations and enhancing efficiency.

Tech: Angular, NodeJS, Mysql, AWS, Docker

Motoview

A complete website with a listing of cars from different motor shows. We are fetching a list of different cars from the Iceberg API and then storing all of them inside Motoview database

Tech: Angular, Laravel, Mysql, AWS

Lucid Motors

Developed a Point of Sale (POS) system for selling cars and accessories in-store, currently operational across multiple countries. The system supports a variety of payment methods, ensuring a seamless and flexible transaction experience.

Tech: Ionic, Node.js, React, MongoDB

ACHIEVEMENTS

Lead Developer of Cisco MBR

Spearheaded the development of the award-winning **Cisco** application Master Boot Record (**MBR**), which is utilised by thousands of users worldwide from team.

Successful System Migration

Managed the seamless migration of Canada's largest survey platform, encompassing over 2 TB of data from SQL to a modernized MySQL database with proper indexing, hosted on AWS

Excellence in Agile Methodologies

Championed the adoption of Agile methodologies, significantly improving team productivity by 30% within six months.
