EXPERIENCE

Senior Full Stack Developer
Upped Events
📅 06/2021 - Present 📍 Philadelphia, USA

Event Management & Ticket Selling

- *This software simplifies event planning with an all-in-one platform that automates repetitive and time-consuming tasks. It helps you understand, segment, and engage with event attendees and partners through real-time reminders, surveys, discounts, and more. The platform also enhances onsite experiences with features like contactless entry and vendor payments, increasing revenue and capturing valuable data.*

Technical Lead Manager
illuminz
📅 06/2018 - 05/2021 📍 Mohali, Punjab

Technical Lead & Client Handling

- *My responsibilities included leading a team of technical developers and assisting them in problem-solving. I communicated with clients, listened to their feedback, and discussed all project-related matters. I provided weekly demos and reviewed upcoming milestones with clients to ensure quality and timely delivery of work.*

Senior Software Developer
Deftsoft
📅 10/2013 - 05/2018 📍 Mohali, Punjab

Senior Developer & Client Handling

- *I have worked with various technologies and collaborated with sales and team leads to provide accurate project direction, timelines, and availability. I have successfully built and maintained a range of customer-facing applications. Additionally, I worked closely with the project team during User Acceptance Testing and implementation phases to ensure successful and timely outcomes.*

SUMMARY

Experienced Web Developer with **10 years** in developing and consulting on web applications using PHP, Angular, React, and Node.js. Expert in crafting state-of-the-art, robust, and reliable code with a keen eye for style. Possesses advanced programming skills, encompassing everything from architecture to API design. Proven track record of successfully delivering medium to large-scale applications with millions of users, ensuring timely and value-driven outcomes.

ACHIEVEMENTS

💎 **Upped Events**
A complete software with all in one solution to manage an event
Tech: Angular, NodeJS, Mysql, AWS, Docker

🚗 **Motoview**
A complete website with a listing of cars from different motor shows. We are fetching a list of different cars from the Iceberg API and then storing all of them inside Motoview database
Tech: Angular, Laravel, Mysql, AWS

💎 **Lex Chatbot**
The chatbot is designed to collect feedback from various surveys in Canada and US. Based on user responses, it detects sentiment and prompts follow-up questions about their experiences. I developed a script in Python with AWS Lambda that constructs sentences using proper English grammar and syntax.
Tech: React, AWS Lambda, Python, DynamoDB

SKILLS

Node.js	Angular	React	PHP
Python	Ionic	HTML/CSS	SQL
MongoDB	AWS	Docker	Git

INTERESTS

🎾 **Cricket**

🎵 **Music**
